DETAILED ACTION

Response to Amendment

1. In response to the Office Action of 6/26/2007 and the interview of 8/30/2007, applicant has amended all the independent claims (claims 1, 11, 21, 31, 48, 51, and 53), without introducing new matter, thus overcoming the prior art of record. No other prior art having been found, all pending claims are hereby allowed, for reasons given next.

Allowable Subject Matter

2. Claims 1-40 and 48-54 are allowed. The following is an examiner's statement of reasons for allowance:

The independent claims 1, 11, 21, 31, 48, 51, and 53 are allowed because they now recite a multi-language mobile device which itself contains a language data store, including a first and second group of non-localized language-dependent elements for viewing an application in a first language and a second language that is different from the first, and a geographical resource data store including geographically-dependent elements for association with the application for updating the application for a geographic location.

The prior art of record, Lakritz and Kim, singly or in combination, do not teach nor fairly suggest these language resource data stores are in the multi-language mobile device itself, but reside in a centralized language server.

Dependent claims 2-10, 12-20, 22-30, 32-40, 49-50, 52, and 54 are allowed because they further limit the independent claims or their parent claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
